

APRIL 2023

GOOD2GO

ELECTRIC VEHICLE CARSHARING

Celebrating Earth Day!

Every April 22nd, stakeholders of all backgrounds come together to advance sustainability and climate action in commemoration of Earth Day.

This year, we rally behind the theme “Invest In Our Planet”, which highlights the importance of dedicating our time, resources, and energy to solving climate change and other environmental issues. Investing in our planet is necessary to protect it and the best way to pave a path towards a prosperous future.

When we Invest In Our Planet together, we are supporting healthy, happy, and wealthy communities worldwide.

A wolf in sheep's clothing: Exposing the structural violence of private electric automobility

Energy Research & Social Science

Volume 99, May 2023, 103052

"The world is running out of time to avoid cataclysmic climate impacts. Therefore,

determining which decarbonization strategies are more effective and inclusive in reducing anthropogenic dependency on fossil fuels is vital for governments' decisions on investment. This research argues that the electrification of private automobility is neither effective nor equitable."

"We argue that using private EVs structurally violates the biosphere and human communities in three ways: (1) production of inequities, (2) pollution and waste, and (3) the space of the exception (the 'Electric Vehicle Bubble'). Finally, we conclude that eradicating private automobility is necessary to realize climate and transport justice. Focusing on inclusive strategies, such as supporting public transportation, shared mobility, and active travel modes, instead of offering incentives for EVs, are the means of progressive redistribution of wealth and can satisfactorily meet people's basic needs and governmental climate targets exponentially faster."

All it takes is a quick email to us at info@evgood2go.org and we will find 10-15 minutes to chat!

MEMBER SPOTLIGHT

Chris was born and raised in Swampscott before, and moved to the Boston area about five years ago. He is currently in training to become a stenographer. Because he lives in the city and parking and traffic can be a hassle, owning a vehicle isn't a high priority. Chris has always been interested in how electric vehicles can decrease carbon footprints, so when he found Good2Go, he decided it was a great way to get around that was both efficient and environmentally friendly.

Chris uses the Good2Go cars to run errands, see his mom, and go on longer trips outside of the city. This summer he is looking forward to renting the car for a full day and going to Provincetown to lay in the sun! Lastly, April is his birthday month. Happy birthday Chris!
